LEAVING NO ONE BEHIND (LNOB) 2.0 HPV VACCINATION PROGRAMME FOR 9-14-YEAR-OLDS – DISCLOSURE STATEMENT

Dear Customer,

This Disclosure Statement provides you with key information on the NCSM Leaving No One- Behind 2.0 HPV Vaccination Programme for 9–14-year-olds.

1 What is the LNOB 2.0 HPV Vaccination Programme for 9-14-year-olds?

The LNOB 2.0 HPV Vaccination Programme for 9–14-year-olds provides a subsidised mechanism to complement national vaccination programme for boys and girls aged 9-14 years across Malaysia. Under this programme, any boys and girls aged 9–14 years can avail themselves of a subsidised Gardasil 9 HPV Vaccine which confers protection against cervical cancer and other HPV-related cancers.

2 What is covered by LNOB 2.0 HPV Vaccination Programme for 9–14-year-olds?

The LNOB 2.0 HPV Vaccination Programme for 9–14-year-olds covers the provision of HPV Gardasil 9 vaccination either through:

I. A subsidised purchase programme, via the purchase of an HPV Vaccine Voucher online here or at participating health institutions such as clinics and hospitals (for both Malaysians and residents); or
II. A free vaccination programme for rural, remote and underprivileged Malaysians across the country (for Malaysians only).

3 Is there any additional payment required after I purchase the HPV Vaccine Voucher?

The HPV Vaccine Voucher already provides the HPV vaccine at the price of purchase without any additional payment required. However, there may be other charges applied by your individual healthcare professional based on other examinations and/or procedures being carried out during your individual consultation at participating health institutions such as clinics and hospitals.

4 What do you receive from the LNOB 2.0 HPV Vaccination Programme for 9–14-year-olds HPV Vaccine Voucher?

The HPV Vaccine Voucher is redeemable for one (1) dose of Gardasil 9 HPV Vaccine at participating health institutions such as clinics and hospitals. This can be used to vaccinate 9-14-year-old boys and girls – providing them with the necessary protection against cervical cancer and other HPV-related cancers as determined by the Ministry of Health Malaysia (MOH) and the World Health Organisation (WHO).

5 How long is the validity period for the HPV Vaccine Voucher?

From the date of purchase, you have six (6) months to make an appointment and go to an NCSM centre or to participating health institutions such as clinics and hospitals to complete your vaccination.

6 Can I use this HPV Vaccine Voucher more than once for a single individual?

The Ministry of Health Malaysia (MOH) and the World Health Organisation (WHO) have now advised that ONE dose of an HPV vaccine is deemed to be enough for the completion of vaccination. However, the manufacturer's advisory still advises that individuals aged 9-14 years can have up to three (3) doses to be deemed for the completion of vaccination. As such, this programme provides the flexibility where individuals aged of 9-14 years can purchase up to three (3) HPV vaccine doses for themselves, should additional doses be recommended by their healthcare provider.

7 Can I use this HPV Vaccine Voucher for boys and girls?

Yes, the HPV Vaccine Voucher can be used for both boys and girls aged 9-14 years

8 Can I purchase this HPV Vaccine Voucher for anyone, even if I am not between 9-14 years old and these are not my children?

Yes, the HPV Vaccine Voucher can be purchased by any individual for any eligible recipient, as long as the voucher is used for boys and girls aged 9-14 years.

If you have any questions or require assistance on this **LNOB 2.0 HPV Vaccination Programme for 9–14-year-olds,** you can:
